

15 1986 MAY 16 1986

The following is the result of gallery pressure MITs performed at ~~Varadit, Inc~~ International Salt on May 1-2, 1986. The tests were performed by Larry Sevenker using a dead weight tester.

Wells # 27, 28,46 (temporarily abandoned gallery)

At 9:53 am 260 lbs.

10:54 am 260 lbs.

Rating: Pass

Well # 30,31,45 (temporarily abandoned gallery)

At 11:23 am 165lbs.

12:27 am 165lbs.

Rating: Pass

Well #48,50 (temporarily abandoned gallery)

At 2:16 pm 135 lbs.

3:17 pm 135 lbs.

Rating: Pass

Well # 47,55,56 (temporarily abandoned gallery)

At 3:38 pm 165 lbs.

4:38 pm 165 lbs.

Rating Pass

Wells #43,44,34 (active gallery)

8:06 am 35lbs.

9:25 am 35 lbs.

Rating: Inconclusive

Mr. Sevenker did not have the proper fittings to measure the pressure on the injection well, so he measured the pressure on a production well. Test inconclusive because of low pressure.

Well #52,57 (Active gallery)

At 9:52 am 255 lbs.

Rating Inconclusive

Test inconclusive because the well was turned on before we could make a final reading.
